

# Instruction for Transport Partners Without Access Data/Login

## Status Feedback

The NOSTA Order Management can be reached via <https://scs.nosta.de/>.

### Main Page

In the illustration of the start page above, 2 areas are marked.

Area 1: "Enter tour status" to perform status feedbacks.

Area 2: Display of the currently selected language. It is possible to change the language using the flag symbol.

### Selection "Enter tour status" + Enter Tour Number

To open the order to be processed, the 7-digit number starting with 3... has to be entered in the field tour number. It is located on each of our transport orders in the upper right corner.

## Status Feedback

### Security Check - Postal Code

Before the shipment status of the order can be processed, a security query is made on the basis of the recipient's postal code. The registered postcode must match the recipient's postcode on our transport order. For tours to other countries, the country code must be entered, e. g. : B-8020, GB-DY5 3SZ.

### Order Overview

After the successful security check, the order to be processed opens. In the illustration above, 3 fields are marked:

#### Pickup/Delivery

For recording a positive status, pickup/delivery without any problems.

#### Comment

For the collection of information, e. g. more detailed information on the refusal of acceptance.

#### Handikap

For the detection of a problem, e. g. incomplete documents, damage to the goods, refusal to accept ...

**Does not replace the telephone message regarding delivery difficulties!**
